Dear Mr. Weisberg,

My husband and I watched with great awe and very much interest, "The Alan Burke" show last Saturday, July 13<sup>th</sup>, when you presented your book "White Wash" to the audience.

I must say, we are doubters also. We cannot and have not accepted the fact that Oswald-alone was responsible for J.F.K.'s death, but have not been enlightened regarding the facts as much as we were when you explained certain facts in your book. You may take some comfort in knowing that there are many of our friends and relatives, besides I'm sure many other Americans who feel as you do - the Warren Commission left too many loose ends and proved nothing.

However, interesting as the discussion was, we would like to know more. May I please ask the price of your book? We would like a copy and

will gladly pay the  
Postman any P.O.D. charges  
above the price of your  
book - if you will mail  
it to us. Otherwise I will  
send you a check for the  
book - when I receive  
your reply.

Thank you - for speak-  
ing out and for your time.

Sincerely,

Mr. & Mrs. Richard Bishop
